VOL. XV. No. 28.

EDMONTON, ALBERTA, THURSDAY, FEBRUARY 6TH, 1893.

SEMI-WEEKLY, 4 PAGES

LOCAL.

ONLY three passengers arrived by the train on Friday.

THE Oxford and Cambridge boat race takes place on March 22nd.

PASSENGERS complain of the car on the C. & E. railway being bitterly cold.

LEO GAETZ of Red Deer has lately lost seven valuable horses from pneumonia.

TRAINS have been laid up all along the C. P. R. on account of the cold weather.

THE third winter assembly takes place in Robertson's Hall on Friday, 10th, instant.

PEOPLE arriving by train consider this a warm climate after coming from the south.

THE auction sale on Saturday afternoon went off well all things realizing good prices.

SIX people with one car load of stock arrived from Grafton, Dakota on last Monday's train.

MR. HOLMBROOK from Dakota is in town and intends to invest in property in Fort Saskatchewan.

NO trains arrived in Calgary on 1st February from the east or west having been cancelled on account of the intense cold.

THERE is an auction sale at Fort Saskatchewan to-morrow at 10 a. m. of farm stock, implements and mill machinery.

J. R. BRENTON is preparing to take out ice on a large scale this season. He has built an ice plant to facilitate the work.

FRED. W. WALL arrived on Friday's train with his phonograph and will spend some time in town and at Fort Saskatchewan.

R. MCKERNAN leaves to-morrow for Eastern Ontario, to be absent six weeks. Mr. McKernan will do some immigration work during his absence.

T. B. HENDERSON of Wetaskiwin late of Edmonton is in town on business and intends to return to-morrow. He reports business very quiet there.

THE Willing Workers are busy preparing for a bazaar which will take place about the middle of March, and look out for the "Mystery" in connection with it.

EDMONTON was not the only cold place last week, even in Calgary where they talk of playing lawn tennis in the winter, it registered from 30° to 48° below zero and was never higher than 24° below.

THE telegraph line began working to Calgary at noon to-day. The line between Calgary and Winnipeg has not been working for about a week. To-day's train for Edmonton is three and a half hours late.

THE Macleod municipal elections took place on the 27th, with the following results: Mayor J. Cowdry, councillors—J. Nicole, R. T. Barker, R. B. Barnes, J. H. Wrigley, T. H. Stedman and R. K. Kennech.

THE curling match, in the competition for the Hardy cup, on Friday afternoon between the rinks of W. Patton and M. McCauley resulted in a win for M. McCauley's rink by 12 to 10. Twelve ends were played.

S. PARRISH has disposed of his business in South Edmonton to Messrs. Dickson & Wilkie, who will continue to carry it on at the same place. Mr. Parrish has reserved to himself the business in flour, corn, feed and hay, which he will carry on in the store he formerly occupied adjoining the South Edmonton Hotel.

LAST Thursday's train having arrived late at Calgary from Macleod only left Calgary at 1:20 p.m., arriving at Red Deer at 7:30 and lay there all night on account of the cold, it left Red Deer at 7 a. m. on Friday getting to Edmonton about 11:30 a. m. Considerable time was lost on the way in fixing the telegraph lines.

CALGARY Herald, February 1st: The BULLETIN comes to hand to-day in its new and enlarged form. It is neatly printed with new type and presents an appearance creditable both to its energetic proprietor and the town, in which it is published. We have no doubt that further enlargements will soon be rendered necessary.

MR. Van Horne in speaking recently at a dinner in Boston said that the great agricultural development of the future must be in the Northwest towards the Peace river which is equal in agricultural value and favorable climatic conditions to the country that built Chicago, and considers that country will be fully developed before long.

THE Calgary & Edmonton telegraph line went down on January 27th, eleven days ago, and has not been working through since. The government line to Qu'Appelle went down east of Saskatoon on the night of the 28th. Whatever might be the case in regard to the government line there is no excuse for that along the C. & E. railway except the penuriousness of the management. The train has been over the road four times since the line went down and therefore it must have been possible to put the line up.

A VERY pleasant party gathered at Mr. Montgomery's, Beaver Hill settlement, on Wednesday last to celebrate the marriage of Mr. K. L. Powell and Miss R. E. Kennedy. Canon Newton who performed the ceremony met several old acquaintances from Macleod and found the new colony contented and very hopeful. Mrs. Montgomery and Mrs. Carscadden presided at the organ and Messrs. Montgomery, Kennedy and others sang several songs which were thoroughly appreciated. The many friends of Mr. Powell congratulate him on his marriage.

THE Calgary Tribune says that Calgary, the capital of Alberta, has a most productive soil and the people are the best in Canada.

CALGARY Tribune, February 1st: The Edmonton BULLETIN has appeared in new and improved shape. Instead of the old eight page, three column sheet, which notwithstanding the excellence of its reading matter, was inconvenient for readers, it now issues as a four page, four column, demy paper, and the alteration cannot fail to be agreeable to its patrons. The BULLETIN has got in a new press at great expense, and the proprietor promises further enlargement and improvement as soon as business warrants it. The BULLETIN has kept well abreast of the times, and we wish our contemporary every success in its development.

THE train which stuck between Saskatoon and Bonanza on the Regina & Long Lake road on January 31st has not been heard from yet, as the telegraph line between Saskatoon and Regina is still down. The train comprised the regular passenger train from Prince Albert and a work train with two engines which had been sent out to clear the track. Assistant Superintendent Milestone in charge of that line is on board. There are fourteen passengers on board besides the train crew. The stoppage was caused by depth of snow, which is said to be over the engine cabs in the cuts. Communication is now open between Saskatoon and Calgary by way of Edmonton.

EDMONTON BULLETIN, FEBRUARY 6, 1893.

COLD.

The past two weeks have been the coldest ever recorded at Edmonton. The thermometer went lower and remained low longer than it ever did since the government observatory was first established here in 1879. There is every indication that the cold spell is now at an end, as this morning the sky is clear, the sun is warm and a light breeze is blowing from the south. A few remarks in regard to the recent experience may be in order. In the first place it is not remarkable that with an unprecedentedly severe winter the world over, with people freezing to death in the Southern States there should be exceptionally severe weather here. In the next place it may be pointed out that the severe weather has not lasted as long as in most other localities, for the greater part of January was the most mild and pleasant winter weather that could be imagined. In the third place the cold had none of the unpleasant features of high winds, or drifting snow or sleet, which in other parts of the world make winter terrible and against which no preparation is sufficient to ensure safety, much less comfort. The whole question of comfort or discomfort, or it may be said danger, depended simply on the preparations which had been made. With warm clothing, good buildings and plenty of fuel, all of which are easily attainable here, there was no danger and no discomfort. The roads were good, the sky bright, the days and nights clear and people could go anywhere and transact almost any sort of business without hindrance. Although people travelled here or there wherever their business led them during the whole of the cold spell, no one was frozen, very few were seriously frost bitten, and no one needed to have been. It is in such cold spells as we have just passed through that the advantages of this district show up prominently. The abundance of wood which enables people to build good houses and good stables, which provides plenty of fuel, and which prevents the sweep of the wind, is an advantage which cannot be over estimated, as compared with the treeless regions of the Great West.

LETTERS OF INQUIRY.

WALLA, P. O., Grand Forks Co., N. D.
TO THE EDITOR.

SIR:—There are several families getting ready to start for your country in the spring and we wish to know about the time it will be safe to fetch our cattle that they may live on the grass or whether the frozen prairie is all burned off or not—we would like to come as soon as possible in order to get some crops in. I hear the Beaver Lake country is all located that is any good. We intend to fetch a saw mill with us as we hear there is plenty of timber in that district. I would like to know if the Beaver Lake district is surveyed and in the market. We are all ready to come as soon as we can learn the snow is all gone so that our stock can live. Yours etc.

GEO. G. SMITH.

REPLY.

The ground is generally bare of snow in the beginning of April sometimes sooner, and crops are sown in the latter end of that month and throughout May. The Beaver Lake country was surveyed last summer and is now open for settlement the good land is not nearly all taken up and there is some very fine timber throughout the whole of this district—Tamarac, spruce, larch, poplar and cotton wood. There were no prairie fires in this district last summer so all the frozen grass is still under the snow. Ed.

FAIRFIELD, Spokane Co., Wash., U.S.A.

January 11th, 1893.

EDITOR EDMONTON BULLETIN.

There are quite a number of people in this vicinity who think of migrating to your part of the country next season. I being one of the number, from what I have read so far I think I shall like it. I should like a little more knowledge of the cost of all kinds of agriculture implements, the cost of lumber, lime, doors, windows and also prices of live stock of all kinds poultry and in fact I should like to find out the price of things generally that a farmer would likely want to buy, especially hay, oats and wheat. I have a full supply of all kinds of farming implements and stock and I want to find out whether it would be better to sell here or take them with me when I come I should like to know as much as possible of the climate in regard to severe storms, the depth of snow, how cold it gets and whether you have severe wind storms and snow blockades. A number of my neighbors have got the "Alberta fever" very much. Do you raise winter wheat or spring wheat mostly in your parts and what are wheat, oats and barley selling at now.

Hoping to hear of some of those inquiries in your valuable little paper.

I remain yours truly,

Wm. F. SIEGLE.

REPLY.

The prices of implem-nts, &c., up here are as follows:

Massey-Harris binder \$155 cash, time \$175 two payments; Toronto mower 4 ft 3 in. cut \$60 cash, \$70 time two payments; Sharp's rake \$20 cash, \$35 time two payments; seeder, two-horse \$85 cash, \$95 time two payments; harrows, 60 steel teeth \$16 cash, \$17 time two payments; disc harrows, \$37 cash, \$43 time two payments; fanning mills \$35 cash, \$40 time two payments; Massey-Harris plows two furrows, \$75 cash, \$80 time two payments; prairie breaker, 12 inch \$20 cash, \$22 time two payments; brush breaker, 16 inch, \$30 cash, \$33 time two payments; Chatham wagons, \$75, \$80, \$85; sleighs, \$30, \$33, \$35. Culled lumber costs \$15; common \$20; flooring \$30; siding \$30; doors from \$3.50 to \$5; windows 12x14, four panes glazed \$3; line 65c per bus. 40c by car load. Cattle, yearlings from \$10, two years old from \$15, cows from \$30 upwards; beef is worth 5c per lb. just now but rises considerably in the spring; poultry sell at about 75c a pair; turkeys \$1.50 a pair and are scarce; hay is delivered in town at \$6 a ton, but can be bought stacked away from town for \$2.50; oats 25c delivered in town; wheat 60c; barley 25c to 30c. Spring wheat is almost altogether raised here.

The country is so well sheltered with timber that we are never troubled with wind storms, blizzards nor snow blockades although there have been snow blockades on the Calgary & Edmonton railway, but they took place 100 miles or more south of Edmonton. There is about two feet of snow here now. The question as to how cold it gets would have had a very different answer a fortnight ago. This has been the coldest week experienced by anyone here, the thermometer going as low as 57° below zero, yet the severity of that is not felt as it is when there is a wind or moisture, as a general thing the thermometer does not go below 35 and most of the winters here are delightful.

Municipal affairs in Montreal are in a muddle. The nominations have been made and the elections are supposed to take place on February 1st, but until the amendments to the city charter are passed by the legislature, any election held will be illegal. If the legislature does not pass the amendments before February 1st Montreal will have no mayor or city council.

A REPLY TO AN IMPORTANT QUESTION

Which is the best and cheapest Dry Goods Store in Town? is the question now frequently asked by the Settlers, who have recently arrived in this district. In answer to this important question, I would respectfully but emphatically reply, the

MANCHESTER HOUSE.

Dealing as I do almost exclusively in Dry Goods, I have always on hand a larger and better assorted stock than any house in Town. Prices too are cut so fine, that it is frequently remarked by those who seek quotations "Why you are selling as cheap as they do down east, and in fact in some cases cheaper."

Many of the lines have been personally selected in the best English Markets.

J. A. McDOUGALL

THE RUSH TO NORTHERN ALBERTA.

H. C. M. in Globe.

Edmonton is undoubtedly attracting more attention just now than any other district in the country. The immigration of 1892 has been particularly remarkable, as it was largely of farmers from the neighboring states of Washington and Idaho, U. S. A. A large number from the Palouse district of Washington came in by the same train as I did, and in conversation with them I was informed of the real cause of their desire to leave their country lay in the fact that the state has been over prosperous, that is to say that business, especially farming, had been so good that great numbers of people had been attracted, and the increased demand had raised the price of land so greatly that it was now difficult for poor men to obtain it at reasonable figures. Hearing of the great country to the north of the boundary, where huge tracts of splendid land were being offered at what to them appeared absurdly low prices, they had come out to try and secure some of it. Not only were they anxious to secure lands for themselves, but also for friends, who would, if their report was satisfactory, be willing to invest their money. The great majority of these Washington and Idaho men being brought in by the agents of the C. P. R., Fitzgerald & Lucas, of Calgary, who have been personally working in the States, and whose efforts have met with such gratifying success. The reports sent back by the various delegations from the western states have been sufficiently enthusiastic to induce large numbers of their friends to follow them, and last year no less than 750 homesteads have been taken up in the district between Red Deer and Edmonton, not to speak of thousands of acres of C. P. R. lands which have been sold. It will be seen that the old residents of that historic trading post have reason for their belief that at last the immigration millennium has dawned.

GOODFISH LAKE.

January 25th, 1893.

The children in this district are troubled with whooping cough and two deaths have occurred already.

Patrick Pruden of Hay Creek, Lac la Biche, has been appointed guardian of fisheries for Lac la Biche, Beaver and Heart Lakes. The children in the districts of those lakes are altogether dependent on fish for their living, and they will do now in hand to say. The government will either have to support them or allow them to fish on other lakes where fish are plentiful and not a great distance from those lakes mentioned.

Parker & Beamish started a trading post here in November last and have done very well for the short time they have been here.

Some of the Lac la Biche traders speak very unfavorably of the new road, and say the way is being thrown away as no one passes over that road and those who have travelled it consider they have done so once too often. Their cry is give us money to make the old trail good and not throw away any more simply to satisfy the whim of two or three individuals whose object is gain and nothing more. \$20,000 outlay, would perhaps make a good road.

The Indians have caught a greater quantity of fur this winter than they have done for some time past of which the greater portion have fallen into the hands of Parker & Beamish.

There is a great deal of sickness among the children, a breaking out all over the body all having the appearance of scrofula, the Indians attribute the cause to the effect of vaccination last fall.

P. ERASMUS.

IMMIGRATION FROM THE UNITED STATES.

Kamloops, B. C., Sentinel.

Numerous colonies of immigrants have gone into Alberta, and the Edmonton district, within a few months. Some of them have come from places in Canada, whilst large numbers have come in from the United States. There have been colonies from Vermont, from Michigan, and from Washington, which appear to have been governed by the cohesive influences of organization in their choice of locations, while many individual families have scattered here and there, selecting places of independent domicile. There has been a strong immigration movement from Washington, up the Columbia by steamer to Revelstoke and thence by the C. P. R. to their destination in Alberta. Several hundred have come in by this route this fall, well to do and industrious people, who brought with them their household goods, farming tools, some live stock—in fact, all the paraphernalia of a prosperous farmer's outfit.

It has not been intimated in any Canadian papers, so far as we have observed in relation to the latter immigration, that they have left the various states where they formerly lived because of their general worthlessness, and on this account it can be set down that these more recent settlers are of a far better class than some that have preceded them. We know this to be the fact in regard to those who have arrived recently from Washington. They come largely from the Palouse Valley, which is celebrated for its fertile soil and immense crops of grain, wheat especially. Having sold their farms for high prices, they seek cheaper lands in the Canadian Northwest. Although Washington and British Columbia join, they do not stop here, because good land is limited, and what there is is mostly held by speculators who ask more for their wild lands than the prices at which they sold their cultivated acres in Washington.

We look upon the influx of population from the United States this year as the beginning of a movement from that country, which will increase from year to year, of its most adventurous and energetic classes, who finding the Pacific Ocean in their way, and that there is no more of a "Great West" to be overrun and subdued, necessarily turn their steps northward to the cheap lands of our great Northwest.

A missionary named Sam. D. Wood, who has been laboring among the Indians east of Winnipeg was brought into that city on January 27th, by the east train with his two feet badly frozen and was removed to the general hospital. On Christmas day, while crossing Lac Seul, he lost his way and was compelled to sleep out on the ice during the night. The cold was intense and his feet became frozen. In the morning he was found by some natives and taken to their hut, where he remained till he was taken to the railway and sent into the city. It is probable that he will lose both feet.

The first shipment of Galt coal has been made from Lethbridge to Spokane, a distance of 516 miles. The coal company has established an permanent agency at Spokane, and declares its intention supplying the entire market within a few months. The coal can now be delivered at Spokane for about \$8 per ton, but they hope the proposed reduction of freight rates will soon reduce the price to \$7 per ton or perhaps even lower.

The Winnipeg Commercial has a small paragraph about cruelty to dogs in sleighs, and finishes by saying: "There is no place on the continent more in need of a society for the prevention of cruelty to animals than Winnipeg". Edmonton requires it just as much not only for the cruelty shown to dogs but also to horses—that are tied up without any covering, the thermometer below zero and lots of robes in their sleighs.

Calgary Tribune: Harry Wallace, a rancher on High River, while coming to Calgary Friday night, had both feet badly frozen, while a friend who was with him was still more severely injured by the frost. Both are now at the Holy Cross hospital, where they will be laid up for some considerable time.

FOUND DEAD.

When the carpenters arrived at the new Hudson's Bay Company's store to work at 7 a. m. on Saturday morning they found the place cold and on going down to the cellar to look at the furnaces found the fires out and the night watchman Roderick Macquarry lying dead beside them. The police on being advised of the case sent some one to the store to guard the body. There was no inquest held as there were no signs of violence. He was in excellent health on Friday night, before going to the store, and was not seen again till found dead. A post mortem examination was held on Saturday by coroners Wilson and Royal who certified that death had occurred from heart failure, and that an inquest was not necessary. The body was taken charge of by the mounted police and removed to the town station. Arrangements have been made by Jas. McDonald, in whose employ the deceased was, for the funeral which will take place to-morrow to the Edmonton cemetery. Rev. D. G. McQueen will conduct the funeral services.

The deceased was working on the railroad when it came here in 1891 and has stayed here since, working at carpenter work. He had no relatives in Edmonton, but he had a brother in Nova Scotia and two married sisters in Vancouver.

THE OUTLOOK.

The Canadian Gazette, of London, England, says: "We understand, from enquiries at the various centres, that the prospects of emigration to Canada have not looked so bright for 10 years as they do now. The agricultural depression would seem to have caused many of the farming class to turn their attention to the land where British civilisation and boundless fertility of soil may be enjoyed without the payment of rent and with the very infrequent attentions of the tax collector. Inquiries personally and by letter indicate that preparations are being widely made for removal in the spring, and the favorable impression created by the tenant farmers' report would seem to assure to Canada a considerable share of the outgoing agricultural population. Another influence which must have its effect upon next year's emigration to Canada is the active measures which the United States is taking to divert the tide of Europeans from its shores. From Berlin it is announced that a meeting of the representatives of the Union of North Atlantic Steamship Companies on December 12th decided to make a substantial reduction in the service of steamships to the United States next year, and to cover the loss of revenue resulting from the non-conveyance of steerage passengers by a considerable increase in the first and second class fares, and to suspend the regulations issued by the Union in October last for the issue of excursion tickets to the Chicago World's Fair at reduced rates. Canada is, we are glad to believe, prepared to benefit from this exclusiveness on the part of her neighbor."

The "Germanic" from New York for Liverpool has arrived at Queenston. Three days after the Germanic had left New York, Miss Helena Kemp, of Chicago, was attacked with scarlet fever. She was immediately isolated.

F. J. Henry and Hugh J. Fen, two colored porters on the West Shore railroad, were arrested at Suspension Bridge, Niagara Falls, on a charge of smuggling opium into the United States. They were caught in the act and about \$30,000 worth of opium confiscated.

Jake Gaudaur is anxious to meet Hanlan in a race, and has answered the latter's challenge by depositing \$100 with H. J. P. Good. Articles were signed by Gaudaur, and they are now waiting Hanlan's signature. They call for a race of three miles with a turn for \$1000 a side, 60 per cent. of the gate receipts to the loser, the race to take place May 30. Pullman, Illinois, has been suggested as a place for holding the race.

Near Chatham, Ontario, Policeman Rankin was shot and killed, and his assistant, Desclia, was fatally wounded lately by Geo. F. Freeman, colored, whom they were attempting to arrest on a charge of seducing a white girl, under fourteen years of age. A posse of special constables afterwards arrested the whole family of Freeman's who had gathered in the house to defend the murderer.

Van Horne says his company is preparing plans for a large sorting elevator at Winnipeg with a capacity of about a million bushels to be erected on the company's track at Point Douglas. Construction will likely be commenced early in the spring so that the building will be ready for next season's crop.

Winnipeg real estate dealers report a steady and substantial increase in the demand for city property and also a considerable movement in farm lands.

Three months ago Wm. Tucker, a patient in the lunatic asylum Toronto swallowed a knife nine and a half inches long, a spoon six inches long, and fork seven inches, all electro-plated, and some three-cornered pieces of glass. The knife and fork went down handle first. He suffered not the slightest, but died on the 29th January.

One of the Queen's grand-daughters was wedded at Berlin on the 25th January to a German Prince—Frederick of Hesse.

It is stated that the Earl of Aberdeen will succeed to the governorship of Canada next June.

Preparations are being made for a carnival in Montreal.

BRICK! BRICK! YES BRICK.

Having attained the reputation of making the best brick in the Territories I will make it a point to continue to lead in that line; while thanking the building community of Edmonton and vicinity for their kind patronage in the past would invite their inspection of my work and prices in the future. Do not be deluded by parties who claim to make a pressed brick with a sand stock machine, or produce them in May in this country; it cannot be done. Pressed brick sell in the cities of Canada and the Eastern States for \$20.00 and upward per thousand and can't be sold or made here for any \$10.00. I set up no claim to such liberality, but can produce a good brick in July for \$8.00; August, \$7.00, September \$6.00, and in large quantities. Parties requiring brick late or early in the season will find it to their advantage to examine what they are buying, before placing their orders.
W. HUMBERTSTONE.

DON'T READ THIS.

Carpenter & Vaudin,
Messrs.

Dealers in Domestic and Imported Cigars.
Have just opened temporarily on Fraser Avenue, right opposite the Alberta Hotel, with a choice variety of Smokers' Sundries. They have a very fine stock of DOMESTIC AND IMPORTED CIGARS,
